In order to achieve these goals, we need your assistance and understanding of our payment policy. You must realize that your insurance is a contract between you and your insurance company. Not all services are a covered benefit in all contracts. Some insurance companies arbitrarily select certain services they will not reimburse.

- Payment in full is due at the time services are rendered.

- We accept cash, debit card, Visa or Mastercard.
- Glasses are a customized products designed and manufactured specifically for you; a minimum payment of 50% is due at the time of ordering.
- All materials must be paid for in full before they are released from the office.

Please bring your current insurance card with you to the office on your first visit and notify us of any changes when they occur. Please remember that no insurance company attempts to cover all costs. Some companies pay fixed allowances for certain procedures and others pay a percentage of the charge. It is your responsibility to pay any co-pays, deductible amount, co-insurance, or any other balance not paid for by your insurance company. Please remember that insurance is considered a method of reimbursing the patient for fees paid to the doctor and is not a substitute for payment.
